

HOW TO TIE A COMMON LOCKED HALF BLOOD KNOT WITH HOOK-EZE.

STEP 1:

Slip ring over first knuckle of ring finger, holding Hook-Eze as shown. Open lid, place hook over selected pin.

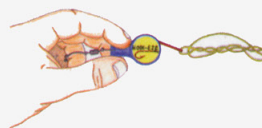

STEP 2:

Close lid, securing hook safely in the device.

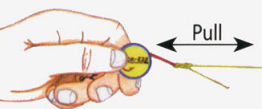

Thread fishing line into eye of hook, rotate Hook-Eze in either direction to form 3 to 6 full twists.

Pass tag end through first twist, gently tug line so knot begins to form. Do not pull tight yet.

STEP 3:

To lock knot, pass tag end through the loop which has formed at top of knot.

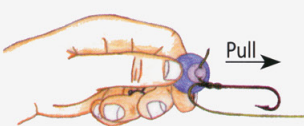

STEP 4:

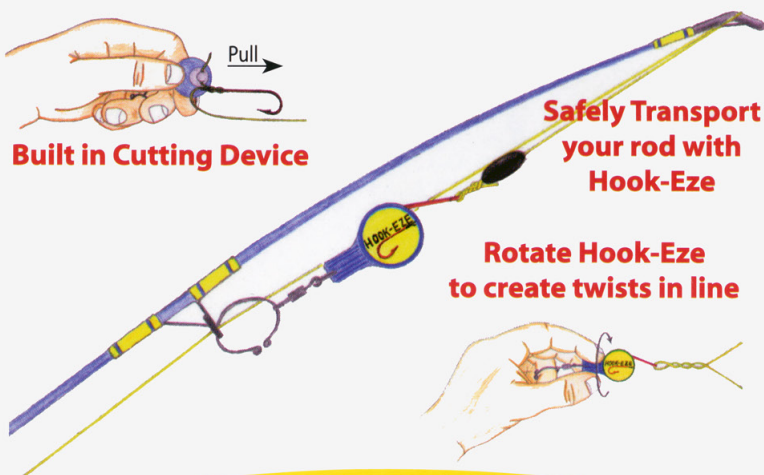

Moisten line then simply hold Hook-Eze as shown & pull tight to secure.

STEP 5:

To trim excess line after securing knot, place line around trimmer as shown and pull on hook to cut. You are now ready to bait your hook.
